

DT Series Copper Cable Lug

Category: Electrical Accessories, Cables & Signage Product code: dt-copper-cable-lug

DT series red copper lugs for crimped cable terminations in power distribution cabinets, transformers and electrical wiring. Acid-washed surface, DT-10 to DT-400, bare or tin plated.

SPECIFICATIONS

Material	Red copper
Surface treatment	Acid washing for a smooth, corrosion-resistant finish
Sizes	DT-10, DT-16, DT-25, DT-35, DT-50, DT-70, DT-95, DT-120, DT-150, DT-185, DT-240, DT-300, DT-400
Tin plated options	Every size above is also available tin plated
Application	Low and medium voltage distribution boxes, transformers, electrical cabinet wiring
Crimping	Hydraulic crimping tool for copper terminals required
Bare copper	Better conductivity, suited to indoor work
Tin plated	Resists oxidation and corrosion, suited to humid and outdoor locations
Storage	Keep sealed in a dry warehouse; avoid damp air
Storage life	Tin-plated lugs store longer than bare copper

PACKAGING & DELIVERY

MOQ	100 pieces
Packaging	Single item, 5 x 5 x 18 cm, gross weight 0.5 kg
Lead time	15 days for 1-100 pieces; 30 days for 101-500 pieces
Payment terms	FOB
