

Telescopic & Shotgun Type Insulated Operating Rod with Fuse Puller (IEC 60832)

Category: Insulating Tools, Ladders & Detectors Product code: hot-stick-telescopic-shotgun-fuse-puller

Epoxy resin glass fibre insulated operating rod for live-line work, supplied in shotgun type and telescopic type, for load break switch and fuse cutout operation up to the required voltage class.

SPECIFICATIONS

Product Name	Shotgun Type / Telescopic Type Insulated Operating Rod
Standard	IEC 60832
Type	Shotgun type / Telescopic type
Material	Epoxy resin glass fibre
Surface	Anti-slip non-conductive insulating layer
Length Options	1.38 m, 1.5 m, 1.8 m, 2 m, 2.38 m, 2.5 m (built-in pole or sectional)
Colour	Yellow / red
Usage	Load break switch operation, fuse cutout operation, live-line work
Application	Electric power transmission, outdoor
Brand Name	YJH POWER
Place of Origin	Hebei, China

STANDARDS & CERTIFICATIONS

IEC 60832
