

# FRP Insulated Extension Ladder

Category: Insulating Tools, Ladders & Detectors    Product code: ladder-frp

Professional electrical safety FRP extension ladder, insulated combined design for power distribution and overhead line maintenance.

## SPECIFICATIONS

|             |                                                |
|-------------|------------------------------------------------|
| Material    | FRP (fiberglass reinforced plastic)            |
| Type        | Extension / combined insulated ladder          |
| Application | Power distribution & overhead line maintenance |
| MOQ         | 10 pcs                                         |

## STANDARDS & CERTIFICATIONS

IEC 61478

## PACKAGING & DELIVERY

|                 |                                                       |
|-----------------|-------------------------------------------------------|
| MOQ             | 10 pieces                                             |
| Packaging       | Carton; unit size 300x150x100 cm; unit weight 20.0 kg |
| Lead time       | 7-30 days, depending on order quantity                |
| Supply ability  | 85,000 sets/month                                     |
| Port of loading | Tianjin                                               |
| Payment terms   | FOB                                                   |
